Dear Sir: Sensible of the unexpected honer generously conferred upon me by the Republican Convention of this city in appointing me one of its delegates to meet with the true Southern Unionists about to convene in Philadelphia, I beg to state that I cheerfully and gratefully accept the appointment, and will certainly attend that true Neitonia Convention, previded I am timely put in possession of the proper credentials for that purpose. If this Convention shall receive me, the event will certainly be somewhat significant progress; if they reject me, they will only identify themselves with another Convention, which, from mean motives, turned its back upon its true friends.

That we hold the Constitution of the United States and the laws made under its authority to be the supreme law of the land; that the legislative power of the Government resis solely in Congress, containing the Representatives of the people and the States, and we regard all interference with those rights as a usurpation and a violation of the instituted rights of the people and the States.

Resolved. That as the President possesses no legislative power, but Executive only, the work of reconstructing the Union in the suppression of the Rebellion in the late. Rebel States belongs wholly to Congress, which has the express power to decide who shall be admitted as members—that we cordially approve the plan comprising the amondment of the Constitution adopted by Congress for the purpose of securing the readmission of thuse States to their former privileges in the Union, regarding it as just and liberal to such a degree that it it can work wrong to none while it will secure the country from further dissensions and the Union from renewed dangers.

Resolved. That we view with alarm and indignation the efforts of the Fresident of the United States to interfer with the rights of Congress and to control its legislation for the benefit of traitors intely in arms against the Government, and consider his course in that respect indefensible to such a degree as to prove him wholly unworthy of the confidence of the people, whose right of representations is inestimable to them, and formidable to tyrants only.

That we view the bloody massacres of loyal people in Memphis and New-Orleans by the President's pardoned and reconstructed Rebels, and with his indirect approval, with equal indignation and alarm. We regard those violences as the legitimate fruit of the President's policy, hold him responsible for the result, and consider them proof sufficient that the reports we have of the return of peace and good will in the South are entirely false, and showing that, unless protected by the General Government, loyal

Resolved. That we view with scorn the insulting threats of the President and his minions, that if another Congress as loyal as the present is elected the minority will not submit, but will again resort to Rebeillon or plungs the country into anarchy and blood, and consider it the duty of all citizens to meet these threats by increased efforts for sustaining Congress by a majority so overwhelming that the malcontents will not attempt to carry their threats into operation.

Other resolutions were adopted, pledging the support of the District to the Hon. John H. Ketcham, as the next and former Representative to Congress from this District—after which the Convention adjourned, smid tremendous cheers for Congress.

give the paragraph in the Superintendent's own words:

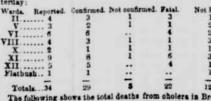

During the week unling August 29, 1866, 71 cases of supposed cholera have been investigated and raported upon by inspectors and assistant inspectors. If this number 39 proved genuine and of these 20 have been reported dead.

Wards-First, 2 cases, 2 fatal; Fourth, 2 cases, 2 fatal; Sixth, 5 cases, 2 fatal; Eighth, 1 case, 1 fatal; Tenth, 1 case, 2 fatal; Sevententh, 3 cases, 2 fatal; Twentty-first, 1 case, 1 fatal; Twentty-first, 1 case, 1 fatal; Twenty-second, 9 cases, 3 fatal. Total, 39 cases, 20 fatal.

This is certainly gratifying; but it does not contain a ful, list of all the deaths in the city. New-York includes severaislands besides Marhattan upon which persons die of cholera, The public institutions also give death numerous victims from this cause. These are not included in the Superintendent's re port, but are to be found in the weekly return from the Burean of Records and Vital Statistics. Nevertheless cholera is decreasing, however slowly, and is now of so little local impor tance that the daily bulletins cease to attract attention.
